Terms

This list cancels all previous offers.

Disclaimer: We give for ourselves or our Principals no warranty, express or implied, as to the description, quality or productiveness, or in any other respect for the seed we deliver, nor will we be responsible for the crop in any way. In no case shall we or our Principals be held liable for more than the invoice value of the seed sold.

Prices—are f.o.b. New York.

Weights—net, packing extra at cost.

Payment: Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 5% discount. No accounts opened under \$10. When remitting please add for postage and packing.

We do not sell quantities smaller than those indicated.

Seed of Oriental origin is offered for account of Messrs. T. Sakata & Co., Japan's Leading Seedsmen. As their representatives in the United States and Canada you will always find us prepared to quote and assist you in locating seed originating in the Far East.

**HERBST BROTHERS'
SPECIAL SCOT'S PINE**

is the product of the most pains-taking tree-breeding in the last 200 years of practical forestry.

**FOR STRAIGHT-
GROWING TREES**

General Data: These trees grow from 65 to 98 feet high and attain an age of 66 to 120 years. Knots usually on upper third of trunk—lower two-thirds clear. Needles 2 3-10 inches to 3 1-10 inches long—borne in very heavy clusters. Color of needles: deep green from September to April—a trifle lighter from May to August. Seedlings reach a height of 4 to 6 inches in first year—growth thereafter, 11 to 25 inches yearly.

It's Fast Growing and Good

Please remember that ALL "H. B. SPECIAL SEED" are gathered from trees—never from the ground. The climber's equipment consists of: a half-bushel conebag slung across the shoulders; a light-weight 8 to 10 foot pole with a hooked end for drawing in the cone-bearing branches for ease in picking; and the usual lineman's climbers.

Turnip, Sakata's Tokyo Market

T U R N I P S F O R S P R I N G

P L A N T I N G

Japanese Turnips should be used for Spring planting, as well as for early Fall. We offer three types, all good because they grow well in spite of hot dry weather. They are louse resistant and produce fine greens and tender roots long after the plantings of old varieties have disappeared.

SAKATA'S FOLIAGE, (Improved Shogoin)

35¢ per lb., 30¢ in 100 lb. lots, 25¢ in 500 lb. lots

This variety is standard for Southern planting, possibly more popular than Purple Top White Globe. Its root is pure white, foliage heavy and upright, free of lice. Its resistance to hot dry weather permits both very early and late plantings.

SAKATA'S TOKYO MARKET, (Salad Turnip)

Available for delivery after the 1935 harvest only.

This is a small, fine textured, extremely early Turnip. It is pure white, very uniform, with fine erect bright green tops. Plant TOKYO MARKET for early crops. It cannot be beaten for quick maturity and uniformity. Excellent for greens. Louse resistant.

SAKATA'S EARLIEST WHITE FLAT

30¢ per lb., 25¢ in 100 lb. lots, 23¢ in 500 lb. lots

Similar to Foliage Turnip, but flatter with shorter tops. It grows somewhat faster and is recommended for planting late in the Spring. Fine white roots.
